6NF-4V Rice Mill Machine

1. Remove paddy husk and whitening rice at one time.
2. Save the germ part of rice effectively.
3. Separate whitening rice, broken rice, rice bran and husk completely at the same time.
4. Make all kinds of grain into fine flour.
5. 2 Layers' Vibrator can separate the white rice into whole A grade rice and Half B Grade Rice.

Stainless Rice Screen

2 Layers Vibrator

TECHNICAL PARAMETER

ITEM	PARAMETER
Overall dimension	L1550*W450*H1150mm
Package size	L650*W330*H490mm+560*215*310mm
Rated power	Electric Motor:3hp(2.2kw) Gasoline Engine:5-7hp Diesel Engine:5-7hp
Rated Voltage	220v
Standard motor speed	2800r/min
Weight(with motor)	88kg
Productivity	Milling parts>180kg/h Crushing parts>250kg/h
Spindle speed	Rice mill:1200r/min Grinding machine:5600r/min

Suitable for crushing

Straw flour

Corn flour

Chili flour

Sorghum flour

6N HAMID-F26 Combined Rice Mill Machine

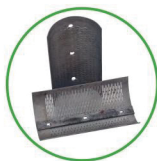

1. Simple operation and replacement of parts, rice quickly mainly for home use.
2. Automatically process various categories of paddy and no need to adjust rice blade.
3. Crushing part can grind all kinds grain into flour, such as rice, corn, wheat, beans, sorghum, potato, and other food crops.

● TECHNICAL PARAMETER ●

ITEM	PARAMETER
Overall dimension	1180*385*1110mm
Package size	620*595*320mm
Rated power	2.2kw
Rated Voltage	220V
Standard motor speed	2800 r/min
Weight(with motor)	75kg
Productivity	Mill parts>180kg/h Crushing parts>250kg/h
Spindle speed	Rice Milling :1600 r/min Crushing: 4800 r/min

Rice Mill Screen

Rice Mill Roller

Suitable for crushing

Rice flour

Straw flour

Corn flour

Bean dregs

Chili flour

Sorghum flour

9ZT-0.6 Chaff Cutter Machine

1. Cutting all kinds of grass, millet straw, rice straw, wheat stalk, corn stalk etc.
2. The length of the grass can be adjusted in order to meet different animals demands.
3. 12 months warranty for Main Machines.
4. On-line support services.

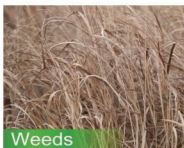

● TECHNICAL PARAMETER ●

ITEM	PARAMETER
Overall dimension	1220*485*910mm
Package size	560*435*365mm
Rated power	Electric Motor:3hp(2.2kw) Gasoline Engine:5-7hp Diesel Engine:5-7hp
Rated Voltage	220v
Standard motor speed	2200r/min
Weight(Without Engine)	47kg
Productivity	600-800kg/h
Output Size	10-30mm

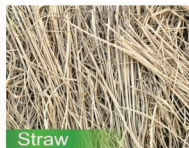

Real Operation

Functions

Weeds

Straw

Wheat-straw

cornstalk

5TY-43-86 Corn Thresher Machine

1. Mainly for threshing dried maize.
2. Put the corn inside the machine then cleaning maize and cobs separated well.
3. Easy operation, low power consumption and high efficiency and keep the corn cob integrity.

● TECHNICAL PARAMETER ●

ITEM	PARAMETER
Overall dimension	830*340*680mm
Package size	630*330*265mm
Rated power	Electric Motor: 0.75kw
Rated Voltage	220v
Rate of Shelling Corn	98% ›
Weight(without motor)	18kg
Productivity	1800kg/h
Spindle speed	1800r/min

18

Pellet Machine

The feed pellet machine is mainly used for making animals food, application to chicken, pig, cattle,

● TECHNICAL PARAMETER ●

ITEM	PARAMETER
Overall dimension	750*850*450mm
Rated power	Electric Motor: 3kw
Rated Voltage	220v
Weight(with motor)	70kg
Productivity	80-100kg/h
Spindle speed	1400rpm
Flat die diameter	120mm
Flat die hole diameter	1.5—10mm
